

The Dragon-9

Patented

The World's First Modular
Suppressor

ADVANTAGES:

- The Dragon-9 is a high performance, modular, lightweight sound suppressor for 9mm pistols.
- The suppressor is constructed from stainless steel modules, with Inconel alloy internal components for high durability and exceptional temperature tolerance
- The patented modular design enables the Dragon-9 to be configured for a mission-specific requirements, by adding or removing suppressor modules.
- There are no welds to crack or springs to jam or break. Each module is CNC machined and incorporates the internal and external component parts – there is no additional outer tube for a shorter overall length
- The Dragon-9 sound moderator reduces sound emissions by -28 to -32 dB(A) (depending on barrel length, caliber and ammunition type).

Model	Dragon-9/6
Calibre :	9 x 19 mm
Weight:	215 g (7½ oz)
Net Length:	185 mm
Mounting:	on barrel thread
Number of Modules	6
Sound Suppression (ref. US MIL-STD-1474D)*	-28 to -32 dB(A)
Overall Length x Diameter	195 x 35 mm
Maintenance Interval (optional, cleaning only)	1,000 rds
