

Dragon-SMG Suppressor

IT&T

4818 Midland Road, Midland, Virginia 22728

About the SMG

- IT&T and corporate arms are proud to introduce THE NEXT GENERATION OF SUBMACHINE to support law enforcement and military organizations.
- The SMG-9 (9x19mm), SMG-40 and SMG-45 (are uniquely designed submachine gun that allows the operator to operate machineguns using very popular Glock handgun magazines to meet mission requirements.
- Using a legacy magazine or standardizing magazines with their glock service pistols greatly reduces initial and subsequent purchase costs, streamlines logistics and inventory control
- These machineguns are lightweight, compact, highly concealable, and reliable for close quarter combats.

Unique Benefits for Soldiers

- **The Dragon-SMG will not:**
 - Impede normal operation of the rifle
 - Degrade weapon performance
 - Induce malfunctions above the unsuppressed weapon function
 - Cause blowback; or increase backpressure
 - Cause weapon fouling
 - Cause health concerns (toxicity mitigation)for operators.
- **Modular Design and Light weight**
- **Excellent sound suppression**
- **Rugged**
 - Able to fire more than 5,000 rounds at a sustained firing rate of 60 rounds per minute.

Construction and Design

- The suppressor is constructed from stainless steel modules, with Inconel alloy internal components for high durability and exceptional temperature tolerance.
- Each module is CNC-machined
 - There are no welds to crack or springs to jam or break
 - There are no moving parts.
 - This modular, monolithic construction gives excellent durability, even with automatic fire and sustained operation.
- There is no additional outer tube for a shorter overall length.
- Easy and quick to inspect, maintain and clean, even with carbon build-up

Easy and Quick Installation

- **The Dragon-MP5 incorporates a unique, patented Q-Lock with no moving parts to be fitted or removed using just one hand (left or right) with a straight 45 degree twist and click. No tools are required for mounting or dismounting the suppressor.**

1. SMG

2. Insert to a Flash Hider/Q-Lock

3. Turn and Lock

Specifications

- *Caliber: 9 mm*
- *Overall Length: 206 mm*
- *Added length: 170 mm*
- *Diameter: Ø42 mm*
- *Weight: 380 G*
- *Mount Type: QC*
- *Finish: Dark/Matt*
- *Materials: Stainless / Aluminum*
- *Sound reduction: -34 db C 158grs.subsonic*

Summary

- **Patented Modular Design**
 - Light weight
 - Customizable and mission-specific
 - Easy inspection and cleaning
 - Low maintenance
- **No moving parts and No welding**
 - More durable
 - More rugged
- **Quick installation**
 - Q-Lock-User Friendly
 - ¼ turn to lock/unlock
