

Sub Machine guns

IT&T is pleased to announce the latest addition to our line of high-quality pistol caliber automatic firearms. Ideally suited for police tactical teams, VIP protection, and Close Quarter Battle, the SMG uses the popular Glock pistol magazines for reliable feeding and versatility. Working with Corporate Arm, the SMG is available in several calibers and barrel lengths. We can create a custom weapon system that will complement your Glock service pistol or other pistols and will meet your agency's needs for a lightweight, rugged and reliable sub-machinegun.
